PROFESSIONAL SUMMARY

Analytical and results-driven Computer Science undergraduate specializing in Artificial Intelligence, Software Development, and Data Analytics. Proficient in engineering scalable full-stack applications and deploying intelligent data solutions. Proven track record in rapid prototyping through hackathons and credentialed by top-tier institutions including NPTEL and Deloitte. Seeking a challenging software engineering or data analytics internship to contribute technical precision to forward-thinking engineering teams.

EDUCATION

Institute of Engineering and Management (IEM), Newtown Campus

Kolkata, WB

B.Tech in Computer Science and Engineering (Artificial Intelligence)

2024 – 2028 (Ongoing)

- Performance Metric: YGPA: 8.75 (Semester 1: 9.11 | Semester 2: 8.40 | Semester 3: 8.73)

St. Xavier's Institution

Panihati, WB

ISC (Class XII) – Science Stream

2024

- Aggregate Score: 89.5%

Authpur National Model Higher Secondary School

Kolkata, WB

ICSE (Class X)

2022

- Aggregate Score: 91.4%

EXPERIENCE

Data Science and Analytics Intern

Virtual

Future Interns

June 2026

- Engineered a comprehensive Sales Analytics Dashboard to track business performance and identify revenue growth factors.
- Conducted Customer Retention & Churn Analysis using statistical profiling to mitigate user drop-off metrics.
- Evaluated Marketing Funnel & Conversion Performance Analysis to optimize lead-to-customer acquisition paths.

Web Development Intern

Virtual

Pinnacle Labs

June – July 2026

- Developed an immersive, modern Personal Portfolio Website to showcase engineering competencies and project archives.
- Built a responsive Live Animation Weather App integrated with context-aware API features for seamless natural language query tracking.
- Designed and deployed a feature-rich Luxury Restaurant Website focused on high asset performance and semantic core web vitals.

TECHNICAL SKILLS

Programming

Java, Python, C, R

Languages:

Web Dev & Frontend:

Full Stack Development (Under Process)

Data Analytics & AI:

Machine Learning Fundamentals, Power BI, MS Excel, Generative AI Workflows, Prompt Engineering

Tools & Platforms:

Git, GitHub, VS Code

Core Concepts:

Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Vibe Coding

ACADEMIC & TECHNICAL PROJECTS

AeroSphere – 3D Animated Weather Platform & Chatbot

Tech Stack: Python, OpenAI API, FastAPI, React, Tailwind CSS

- Engineered a full-stack, context-aware weather application integrating transformer-based AI models to parse complex user queries and deliver real-time natural language insights.
- Architected a high-performance backend using FastAPI to handle concurrent API requests from external weather services with sub-200ms latency metrics.
- Designed a responsive, 3D-animated user interface using React and modern animation libraries, substantially improving user session engagement duration.

Cybersecurity Dashboard & AI Threat Alert Infrastructure

Internal Release

Tech Stack: Next.js, Python, ELK Stack, WebSockets, Tailwind CSS

- Developed an accessible security monitoring platform tailored to simplify threat log detection and high-level system activity visualization for non-technical senior users.
- Implemented live duplex data streaming via WebSockets to feed real-time network anomaly insights and immediate risk warnings directly to the frontend interface.
- Configured ELK Stack pipelines to aggregate, index, and analyze simulated network traffic logs, instantly identifying suspicious perimeter behaviors.

3D Interactive Developer Portfolio Asset

Production

Tech Stack: React, Three.js / React Three Fiber (R3F), Framer Motion, Tailwind CSS

- Built an immersive developer portfolio utilizing Three.js and Framer Motion to display technical core engineering competencies and project archives.
- Optimized asset loading states and 3D render loops to maintain stable 60 FPS performance across desktop and mobile viewing layouts.

Sakura Royale – Premium Restaurant Web Application

Tech Stack: React, Next.js, Tailwind CSS, Vercel Production Infrastructure

- Designed and deployed a highly interactive, modern single-page storefront app engineered for an upscale culinary brand.
- Utilized semantic HTML structures and asset optimization techniques to hit high accessibility metrics and accelerate core web vitals load speeds.

CERTIFICATIONS & INDUSTRY JOB SIMULATIONS

- **NPTEL:** Programming in Java Elite + Gold Medal (Score: 93%) | 2026
- **Deloitte Data Analytics Job Simulation:** Mastered DAX queries, predictive data modeling, and business intelligence dashboarding inside Power BI | 2026
- **Deloitte Cyber Security Job Simulation:** Executed infrastructure threat analysis, security logs auditing, and targeted risk mitigation workflows | 2026
- **Deloitte Technology Job Simulation:** Resolved architectural patterns, engineering trade-offs, and scalability bottlenecks | 2026
- **British Airways Data Science Job Simulation:** Handled predictive analytics models, pandas-driven EDA, and automated web scraping tools | 2026
- **NPTEL:** Problem Solving Through Programming in C - Elite Certified (Score: 63%) | 2025
- **Microsoft & LinkedIn:** Career Essentials in Generative AI (Focused on prompt metrics, safety ethics, and token efficiency) | 2025

HACKATHONS & TECHNICAL ACTIVITIES

- **Code Canvas Hackathon (Powered by Google Developer Groups):** Formulated and pitched rapid software prototypes addressing modern societal use cases.
- **DUHACKS 5.0 (Powered by Google Developer Groups):** Collaborated within cross-functional teams to construct full-stack solutions against strict timeline boundaries.
- **HackSnippet 3.0 (UEM Kolkata):** Engineered localized algorithmic solutions and feature modules within a continuous sprint window.
- **Technical Workshops & Learning Initiatives:** Completed Hands-on IoT Workshop (IEM Campus); Participant in Blockchain Development Alumni Meet (IEEE UEM) and Boot2Cloud11 Webinar (GeeksforGeeks Student Chapter).

EXTRACURRICULARS, LANGUAGES & INTERESTS

- **Languages:** English (Fluent), Hindi (Native), Bengali (Professional Working Proficiency).
- **Interests & Hobbies:** Competitive Programming pipelines, tracking emerging web frame architectures, active cricket, and deep research into ancient Indian history and mythological texts.
